COLUMN COVERS

Caulk Joint Column Cover

The Caulk Joint Column Cover system is designed for easy installation and can be custom fabricated for any structural beam application. The Caulk Joint system leaves a small vertical joint which is sealed with caulk to provide a seamless appearance.

Features

- Round, Rectangular, and Oblong column cover shapes available
- MCM, Aluminum, and Stainless Steel
- Simple and efficient installation
- 100's of standard colors/finishes and any custom color/finish available
